Please amend the paragraph beginning at Page 6, line 29 as follows:

Each client 102 may include input devices, output devices, mass storage media, processors, memory, interfaces, communication ports, or other appropriate components for communicating ~~client requests 131~~ client requests 135 to server 104 and viewing the generated output. It will be understood that there may be any number of clients 102 coupled to server 104. As used in this document, client 102 is intended to encompass a personal computer, workstation, network computer, kiosk, wireless data port, personal data assistant (PDA), one or more processors within these or other devices, or any other suitable processing device. Moreover, "client 102" and "user of client 102" may be used interchangeably without departing from the scope of this disclosure. For example, client 102 may comprise a computer that includes an input device, such as a keypad, touch screen, mouse, or other device that can accept information, and an output device that conveys information associated with the operation of server 104 or clients 102, including digital data or visual information. Both the input device and output device may include fixed or removable storage media such as a magnetic computer disk, CD-ROM, or other suitable media to both receive input from and provide output to users of clients 102 through a graphical user interface (GUI) 116.
